Dear Mr Julian Nicholas,

As to your letter to me in answeance to my letter to you of 29 /6/20 and your letter to me no 14/7/20 because of covet 19 and lock down I have not been alb all to get someone to right for me it might have been in ..---. ..- :- in code

If I wanted it in welsh or Russian or polish or arrogant you would do it for them but I won't to do it by skiing and seeing the anon bus face les how do not show there face

I have been living in sully road from 1994 to now that is 26 years in that time I have only seen 3 member of the vale of Glamorgan and Mr Liam Mrs Joanna Cravens two time the man next to the lane ask me about the tree and he term 3 tree and cut back two I told them to see scot as his bay did the job for him I also rang Mr & ms Cravens and left massage on answer phone and their son Robert and waiting for them to call me back

Bydown cut down there tree Norwood the Dix I see them 6 times in 26 years croft I have never seen Sunbury never seen green banal never seen arousals the lady in arosfas ask me to come in my garden and put up a fence and door o she can come in to see the man hole cove which I sad yes to the 18/4/13 1530 hours I rang the Creaven house and Robert answer I ask for mr or Mrs. Told they were out I rang back and told to stop a phone pest I am sill waiting for a replay.

In march 2005 published by Deputy Prime Minister Code o4SCDD02891

1 can we go to the council to intervene

2 that depend on how your get on with your neighbours

Having only seen them 2 times seen they came had one letter from them and made 3 telephone call.

2a the council should set down with both parties

The council have stay in there office the first officer can to look at the trees

Second can to see and comeback with a letter to say cut the tree.

The third time was to serve notice.

In the tree we have bats and they have to be look after as they are ported

We have birds come every year

The tree where there before I move they were put in about 1935 when the house billet part of the agreement of sale so I have been told

Over the years the tree has been cut.

I quote from Odom the Council should contact both party sitting down and have a quiet invite them to talk to independent mediators but the council have not.

The last time I heard from the Creavens was 19/4/13

The welsh water told me kitchen roll paper blocked after they put a camera down the pipe.

I was told over the telephone that the Creavens complain about water from my land tin to there my replay was yes but the water come from the council parth that waste the last I heard of that .

Back in the ninety Mr. Dix said to me about topping off the tree and they wood all pay in to it I got someone in and pay £400 them ask Mr Dix for there share

And told that they wood not pay there share.

I wanted to show film of the bats but coved 19 stop the film company

Coming

I wanted to see the complains and meet them

The vale of Glamorgan council offices have stay in their office and have not done anything in mediators.

This could have been resolve years ago tree on the lane have been cut back by western power Alan and scot cut down 3 tree and back two sending a letter to someone who has reading problem of paper only showing their face two times since they moved and for face les people who go behind your back

You will have photos from my garden to the creavens showing no light lose.

The tree is helping the environment by taking out co2 from road gas,

We have high water table and take water out of the ground.

When we have a south west wind the tree act as a natural wind break.

Because of the environment and whether change we all have to do our part that is why there e are planning of tree on hill side to make more of the ozone and to get rid of CO2 and have more fresh air we all have to do our bit all together and we will have a better plant .

The Vale of Glamorgan act like Dictators starling or Tito they need to come out of the office and meet the city son of the Vale of Glamorgan and not be dictators

It like if you like beach tree oak tree or red wood they are alright

As SHAKESPEARE said beauty s in the beholder that also the sum for tree and hedge when a tree is not a hedge when is a hedge not treeing.

I the parts 18 month there have been 2 court case one about beach tree hedge been cut down and also Red wood tree been cut and there are still apples going on .

If you look at lemmon V webb1894 you will see that this thing is going on long be for that.

If I had cut the tree back some one wood go running to the council complain so that council should have got booth parties to gather and be dictators

Go out meet people.

In Mach 2019 a businessman was order to pay council £21000 for cutting back hedges.

Our tree to cut them we have to have assessed and as no speak.

If you look at the pictures from my of the tree you will see sunlight cover the hold of the back of their house 11 meteor

The tree on the left is 9 meteors if you look at the picture the garage is 4-5 tall half way up the tree so tree is 9 meter tall.

The garage to the right is 2-15 meter tall so the tree 4 times of that garage.

If you look at the picture of the front of their house have tree taller
