

View 14 - Existing - View looking north west from within the site adjacent to the Bowl. The unmanaged nature of the vegetation presents an uninviting aspect of the site.
 Proposed - Proposals for the Bowl comprise woodland management works to increase openness and enhance access provision.

View 15 - Existing - View looking south west from Chichester Road within the site, over rear of properties along Windsor Road. The existing external realm is locally dominated by roads and is of a low quality.
 Proposed - The proposed development will realign Chichester Road and provide a high quality external realm. The back lane access will be gated off.
