

Flag Paving

- Ecopave flags available in a variety of sizes
- Created using local and recycled materials
- Hard wearing characteristics of granite

Drainage Channel

- Block infill drainage
- Uses surrounding material to integrate with main paving

Concrete setts

- Traditional looking concrete sett paving
- Hard wearing in a range of sizes
- Warm colour range

Granite Setts

- Natural, hard wearing and attractive
- Different sizes and textures to be applied/suited to purpose

Paving blocks

- Reconstituted granite setts
- Bush hammered surface finish
- Made from approximately 80% reclaimed material.
- Contrasts with flag paving

Resin bonded surface

- To delineate/highlight different areas
- Attractive, hard wearing, low maintenance
- Extensive range of natural & recycled aggregates
- Anti-slip

Pennant Stone

- Marries into existing local stone
- High quality
- Naturally hard wearing surface
- Good slip/skid resistance

Rolled edge kerb

- Granite grey cast stone
- Acid etched and waterproofed
- Creates attractive vehicular barrier
