## SYSTEM BENEFITS

- Simple, cost-effective alternative to traditional roofing systems
- Option of warm and cold roof systems
- Hidden fixings for a clean, attractive finish
- Fast construction aided by the pre-punched Euroclad RocBar
- Factory manufactured or produced onsite using specialist mobile equipment
- Available in straight sheets, curves and tapers
- Euroclad RocSlab insulation is quickly laid and provides a walk-able surface
- Warm roof version is Part L compliant
- Warm roof version provides excellent acoustic performance
- Can be applied to external walls
- The system can be lap jointed should it be required.

## VIEO SPECIAL COLOURS

As well as the many other benefits of Vieo a special range of Vieo colours are available to add that perfect finishing touch to your roof or wall. These finishes are only available in aluminium.

## VIEOZINC

VieoZinc features a real zinc layer over aluminium. By using zinc particles in the top-coat, VieoZinc benefits from the appearance of zinc and also features its weathering behaviour.

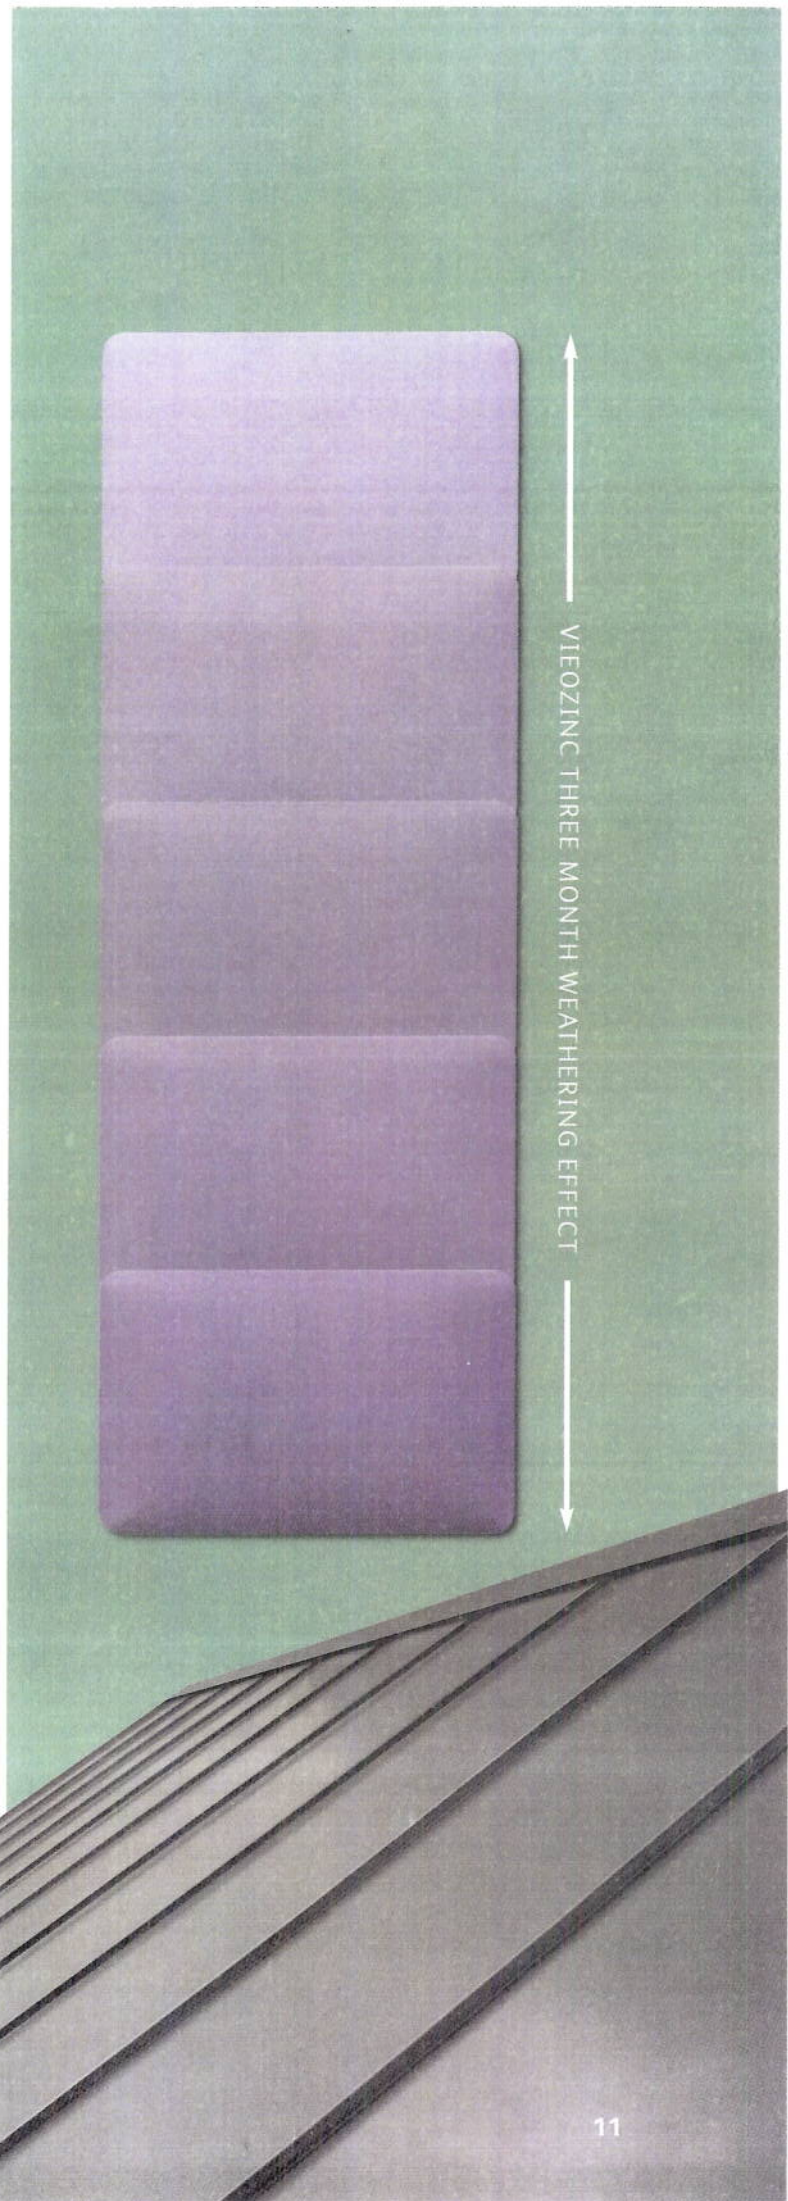

Inspired by the original this revolutionary material is a cost-effective, sustainable alternative.

## BENEFITS

- Looks and weathers exactly like zinc
- Zinc does not leach
- The aluminium substrate is one of the most sustainable metals, and arguably the most recycled, in the construction industry.

## APPLICATIONS

- Housing developments
- Self build projects
- Public sector
- Period buildings
- Sports, leisure and hotels
- Transport and infrastructure
- Retrofit and refurbishment.
