Details of the pre-application advice received:

Following these comments a conversation was held with Ian Robinson where it was explained a relative comparison of the proposed scheme with Black Barn House showed that whilst the ridge level is marginally higher than Black Barn House, the eaves levels of the proposed scheme are marginally lower. This reflects the traditional roof pitch that has been adopted as part of the proposals which a view to the building sitting more comfortably in its context. Furthermore, the height of second floor accommodation has been set at the minimum level and therefore the building height can not reasonably be lowered any further without undertaking a complete redesign. This is demonstrated by section BB on drawing 3413 P_400. This principle was accepted subject to detail, and consequently drawing 3413 P_301 has been produced to confirm the analysis undertaken. In addition to this it is noted that the garage has subsequently been lowered in height in response to the comments received.

6. Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicle access proposed to or from the public highway? Yes No

Is a new or altered pedestrian access proposed to or from the public highway? Yes No

Are there any new public roads to be provided within the site? Yes No

Are there any new public rights of way to be provided within or adjacent to the site? Yes No

Do the proposals require any diversions/extinguishments and/or creation of rights of way? Yes No

If you answered Yes to any of the above questions, please show details on your plans/drawings and state the reference of the plan(s)/drawings(s)

7. Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste? Yes No

With respect to the Authority, I am:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

Do any of these statements apply to you?

Yes No

10. Explanation for Proposed Demolition Work

Why is it necessary to demolish all or part of the building(s) and/or structure(s)?

The existing house on the site is a 1970s, two storey, rendered and stone-clad building of little architectural merit. A detached structure, it is located in the south-western corner of its site, directly behind a curtilage building to the adjacent Sydney House Farm. The appearance and form of the property are incongruous with the built environment of the Llyswoorney Conservation Area and therefore detract from it. The proposals consequently involve the demolition the house and its replacement with a new dwelling of more appropriate design.

11. Related Proposals

Are there any current applications, previous proposals or demolitions for the site?

Yes No

If Yes, please describe and include the planning application reference number(s), if known:

Please refer to the Design and Access Statement where all applications are listed.

16. Biodiversity and Geological Conservation

To assist in answering the following questions refer to the guidance notes on the Planning Portal website (see "Local level requirements and additional documentation"). The notes provide further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.

Having referred to the guidance notes, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

a) Protected and priority species:

Yes, on the development site Yes, on land adjacent to or near the proposed development No

b) Designated sites, important habitats or other biodiversity features:

Yes, on the development site Yes, on land adjacent to or near the proposed development No

c) Features of geological conservation importance:

Yes, on the development site Yes, on land adjacent to or near the proposed development No

Supporting Information Requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the Local Planning Authority has been submitted.

Your Local Planning Authority will be able to advise on the content of any assessments that may be required.

17. Existing Use

Please describe the current use of the site:

The site is currently used for residential purposes.

Is the site currently vacant? Yes No

Does the proposal involve any of the following:

Land which is known to be contaminated? Yes No

Land where contamination is suspected for all or part of the site? Yes No

A proposed use that would be particularly vulnerable to the presence of contamination? Yes No

Application advice

If you have said Yes to any of the above, you will need to submit an appropriate contamination assessment.

18. Trees and Hedges

Are there trees or hedges on the proposed development site? Yes No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character? Yes No

If Yes to either or both of the above, you may need to provide a full Tree Survey, at the discretion of your local planning authority. If a Tree Survey is required, this and the accompanying plan should be submitted alongside your application. Your local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.
