Dear Sirs

**Re: WPD Proposed Overhead Line Works at Pantruthin Fach Farm, Pencoed
Bridgend.
Electricity Act 1989: Overhead Lines (Exemption)(England and Wales)
Regulations 2009**

Please find attached a plan showing WPD proposed works at Pantruthin Fach, Pencoed.

Western Power Distribution has been requested to divert part of the existing high voltage overhead network due to issues with the business operation of the landowner at this location. Following this request, Western Power Distribution will be required to divert part of the overhead network and replace it with partly underground and overhead sections around this area. I can confirm that permission has been granted from all land owners to enable us to carry out this work.

I understand that the above works are covered within The Overhead Lines (Exemption) (England and Wales) Regulations 1990 although there is a requirement to inform the Local Planning Authority.

Whilst I note that this work is exempt from the requirement for formal planning permission I would be pleased to learn that your Council has no objection to the work being carried out by returning two copies of this Form with the Certificate completed and signed.

The purpose of this letter is to advise you as to our proposal and to give your Council the opportunity to comment. In the absence of any such notification we will programme works accordingly.

I trust that this is in order and I should be pleased to receive your observations.

Yours sincerely

Nigel Jones
Estates Specialist
Western Power Distribution
