Dear Mr Moore

The attached has been taken from the Barry Biomass website today. Can you let me know the councils position on this. Is it even legal for them to be carrying out performance testing, considering they have no planning application, the development is a DNS, there has been no consultation and enforcement action was being talked about in relation to the site.

I look forward to your response, and action from the council, as the testing may have started already.

Thank you

Cheryl Ockerby
