Ref: **00843/Ful Sully Sports and Social club, South Road, Sully**

Dear Sir,

I the undersigned request you approve this planning application, as it is supported by the local community and is vital to the leisure & sports facilities of the immediate area.

My interest as a member of this society is the radio section. With the facilities provided to us we are able to train people in the skills of electronics, radio communication and modern computer applications.

These skills are vital enabling young people advance in the jobs market in today's world. The club is a very welcoming to the older generation who use radio communication to enrich their lives in retirement.

Our society was honoured to represent Wales during the World Olympics & Paralympics. To this end we set up a radio station on Barry Island and communicated to the world for six weeks. Thereby allowing visitors to the station the chance to pass messages in peace & friendship in the true spirit of the Olympic games.

As a result of our activities we were again awarded the honour of representing Wales yet again last year in the "Rugby World Cup".

On the humanities front the Radio Section of Sully Sports & Social club was again heavily involved last year passing emergency radio traffic to the desperate people of Nepal when they suffered catastrophic damage to all their inter-structure.

We are fully supportive of this redevelopment as then we will have an updated venue with first class facilities and this will enable the radio section to serve the community better and to give the young even better technical training in their goals & life skills.

Yours sincerely

  
I.C. Davies
