

Tree Tent Objection 30 Decemebr 2017-12-30

Application No. 2016/01160/OUT/MPH

Dear Sir/Madam

I should like to inform you that I still have many concerns in relation to the above proposed planning, namely Tree Tent Accommodation in Woodside Hamlet. I therefore do strongly object to this development being granted planning. You have my previous objections and why they are of relevance on your database.

However, I shall outline them in point form, below.

1. Heritage Coast Boundaries are being infringed upon
2. Safety. Pedestrians walking along this lane will be affected by increased traffic. No lightening.
3. Ecology and the negative impact it will most definitely have upon it.
4. Precedence. To grant this development will certainly mean a landslide of other applications. Namely, nearby farm planning.
5. Proximity of tents to dwellings on Mill Lane. Plus, I shall be viewed upon by occupants in a tree tent less then 100 yards from my house.
6. Current Camping facilities within 300 yards of this application.

Llantwit Major has a beautiful walk to the beach via this ancient woodland. We have a duty to protect our nature and heritage, don't let us start eroding this, with the destruction, basically, of a woodland that has and will give joy to inhabitants and visitors alike for many years to come hopefully.

I shall of course provide any of my previous documents upon request or meet with the council to discuss further my points of view.

Yours sincerely

David Richards
