Comments	<p>Other type details: Access and Ecology study. Comment: 1.Millay lane is very narrow and is barely wide enough for single car access with limited passing places.How can safe access be taken off this route without causing further congestion? 2.Living in close proximity to the lane and the Woodside hamlet we regularly have pipistrelle bats visit our garden from early Summer to late Autumn which must be roosting nearby.It is recognised that this species prefer open grassy areas surrounded by trees or bushes near waterways or ponds, which provide a water,and food source and roosting areas.Are not all the UK species of bats protected under the Wildlife and Countryside Act 1981, and it is not illegal to harm them or disturb their roost sites?.</p>
