<b>Details of email</b>	Ref Woodside Hamlet,I have read the information from Councillor Wilkie and his objection the proposed development at Woodside Hamlet but I have not been able to make contact with the Vale to express my own objections.The site plan does not give me much idea of the actual area and apart from the stream I am not sure where we are. However I do

object and being a senior citizen cant imagine the use of this proposal for anybody other than the quite young which might mean loud music and general noise plus much more traffic using unsuitable roadway
