Dear Ms Robinson

Re:

Planning Reference 2016/01274/PNT

Applicants CTIL/Vodafone Ltd.

Proposal Installation of a 12.5m slim-line mock telegraph pole supporting 6 antennae, 2 transmission dishes, 2 equipment cabinets and ancillary developments.

Location Bull Cliff, off Marine Drive, Barry.

I strongly object to the above proposal for the following reasons:

1. Lack of public consultation by the applicants. Only the occupants of 153 Westward Rise are listed as neighbours of the site though many more are affected. There was, apparently, a yellow notice attached to a lamppost that has disappeared.
2. Humanitarian concern. The Garden Suburb has a high elderly and disabled population. Two ladies live either side of the proposed development. One is terminally ill, the other is a bed bound invalid. Neither has the option of going out to avoid construction work.
3. Wild life. The site has a particularly helpful micro climate due to the thermals rising up the cliff. This has led to a resurgence in the population of choice wild flowers and fauna including the peregrine falcon.
4. There does not appear to be any consideration in the proposal as to interference that may be caused to other broad band or mobile networks.
5. Should the proposal be approved, the local community should be compensated for the inevitable loss of value to property.

I submit that the proposal should be rejected and that a full and proper impact assessment should be made before it is reconsidered. The true local community and regular users should be informed.

Yours sincerely

Dr C J Staff
