Hello,

With respect to the planning application for wakeboarding at Cosmeston, may I respectfully submit that this is **not** an activity that is appropriate for the area, particularly as it is a nature reserve and would have detrimental impacts on the wildlife. As the council's website states, it is a **Site of Special Scientific Interest** protecting the rare and diverse plant and animal species. Perhaps a more appropriate area would be Barry Docks, or Cardiff Bay.

Sincerely,

Lisa Wagner
