Subject: Application Number 2016/01441/FUL

Please do not let this planning application be passed as it will spoil the beautiful tranquil nature of this wonderful nature reserve and spoil the whole area for many thousands of regular users. I understand that the claim is that the wake boarding is "environmentally friendly" I would suggest it is the exact opposite and if all the wonderful wildlife that now live there could talk they would not think it was friendly in the slightest. If you must have a wake boarding try Barry docks not this beautiful park.
