Dear Sir/Madam

re: Extension Plans at 40 Millbrook Road, Dinas Powis.

I have seen the revised plans submitted for the above and still feel that a second storey will still obstruct my light and television reception, as explained in my previous letter.

The property at No. 40 is a mirror image of my property, which means it was purchased as a four bedroom house. The new plans state a second storey fourth bedroom and an attic conversion fifth bedroom. I am not against any improvement on one's property, however, I do object to it intruding on to adjoining properties. The single storey is not a problem. To cause extra expense to the neighbour to have my satellite dish relocated to the chimney is intruding and will still block a fair amount of afternoon light from my kitchen, back rooms and garden.

Your comments would be appreciated on this matter.

Yours faithfully.
