11. Assessment of Flood Risk

Sustainable drainage system

Existing water course

Soakaway

Pond/lake

12. Biodiversity and Geological Conservation

To assist in answering the following questions refer to the help text. The help text provides further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.

Having referred to the help text, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

a) Protected and priority species

- Yes, on the development site
- Q Yes, on land adjacent to or near the proposed development
- 🖲 No

b) Designated sites, important habitats or other biodiversity features

Yes, on the development site

- Q Yes, on land adjacent to or near the proposed development
- 🖲 No

c) Features of geological conservation importance

Q Yes, on the development site

- Q Yes, on land adjacent to or near the proposed development
- 🖲 No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

13. Foul Sewage				
Please state how foul s	ewage is to be disposed of:			
Mains Sewer
