

2.3.2 Appearance and Material Palette

ELEVATION KEY

- 1 - Curtain walling/ window with opaque spandrel panels.
- 2 - Brise soleil
- 3 - Render cladding system
- 4 - Facing brick
- 5 - Engineering brick
- 6 - Standing seam roof
- 7 - Ballasted monopitch roof
- 8 - Flue
- 9 - Louvred panel
- 10 - Plant deck maintenance stair
- 11 - Photovoltaic solar panels
- 12 - Ventilation wind catchers

1. Curtain walling with opaque spandrel panels

2. Brise soleil
Note: Additional vertical brise soleil to fenestration, not currently shown, may be required to limited locations

3. Render cladding system

4. Facing brick

5. Engineering brick

9. Louvred panel

2.3.3 Site Sections

Existing

Proposed

Parking Proposed School 3G Rugby/Football Pitch Senior Rugby Pitch & Perimeter Athletics Track

2.3.3 Elevations

Proposed Front Elevation for the new Whitmore High School

- ELEVATION KEY
- 1 - Curtain walling/ window with opaque spandrel panels.
 - 2 - Brise soleil
 - 3 - Render cladding system
 - 4 - Facing brick
 - 5 - Engineering brick
 - 6 - Standing seam roof
 - 7 - Ballasted monopitch roof
 - 8 - Flue
 - 9 - Louvred panel
 - 10 - Plant deck maintenance stair
 - 11 - Photovoltaic solar panels
 - 12 - Ventilation wind catchers

Proposed Southwest Elevation for the new Whitmore High School

ELEVATION KEY

- 1 - Curtain walling/ window with opaque spandrel panels.
- 2 - Brise soleil
- 3 - Render cladding system
- 4 - Facing brick
- 5 - Engineering brick
- 6 - Standing seam roof
- 7 - Ballasted monopitch roof
- 8 - Flue
- 9 - Louvred panel
- 10 - Plant deck maintenance stair
- 11 - Photovoltaic solar panels
- 12 - Ventilation wind catchers

1. Curtain walling with opaque spandrel panels

2. Brise soleil

Note: Additional vertical brise soleil to fenestration, not currently shown, may be required to limited locations

3. Render cladding system

4. Facing brick

5. Engineering brick

9. Louvred panel

Proposed North-Eastern Elevation for the new Whitmore High School

ELEVATION KEY

- 1 - Curtain walling/ window with opaque spandrel panels.
- 2 - Brise soleil
- 3 - Render cladding system
- 4 - Facing brick
- 5 - Engineering brick
- 6 - Standing seam roof
- 7 - Ballasted monopitch roof
- 8 - Flue
- 9 - Louvred panel
- 10 - Plant deck maintenance stair
- 11 - Photovoltaic solar panels
- 12 - Ventilation wind catchers

1. Curtain walling with opaque spandrel panels

2. Brise soleil

Note: Additional vertical brise soleil to fenestration, not currently shown, may be required to limited locations

3. Render cladding system

4. Facing brick

5. Engineering brick

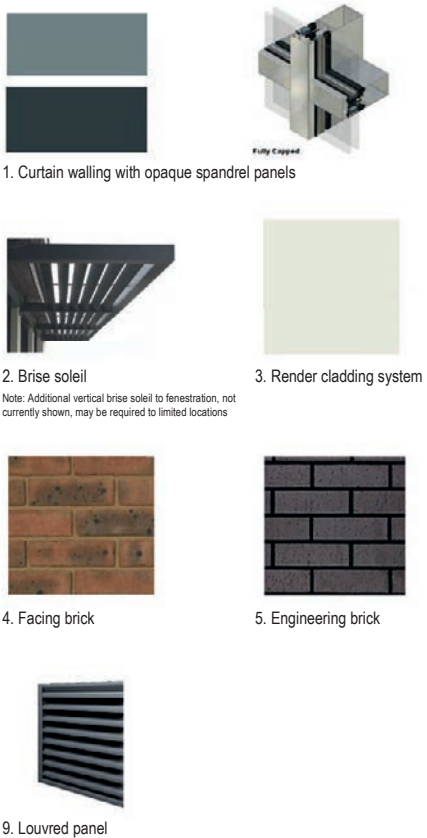

9. Louvred panel

Proposed Rear Elevation for the new Whitmore High School

- ELEVATION KEY**
- 1 - Curtain walling/ window with opaque spandrel panels.
 - 2 - Brise soleil
 - 3 - Render cladding system
 - 4 - Facing brick
 - 5 - Engineering brick
 - 6 - Standing seam roof
 - 7 - Ballasted monopitch roof
 - 8 - Flue
 - 9 - Louvred panel
 - 10 - Plant deck maintenance stair
 - 11 - Photovoltaic solar panels
 - 12 - Ventilation wind catchers

Proposed Courtyard Elevations for the new Whitmore High School

1 GA ELEVATION - COURTYARD NW.
SCALE 1 : 200

- ELEVATION KEY
- 1 - Curtain walling/ window with opaque spandrel panels.
 - 2 - Brise soleil
 - 3 - Render cladding system
 - 4 - Facing brick
 - 5 - Engineering brick
 - 6 - Standing seam roof
 - 7 - Ballasted monopitch roof
 - 8 - Flue
 - 9 - Louvred panel
 - 10 - Plant deck maintenance stair
 - 11 - Photovoltaic solar panels
 - 12 - Ventilation wind catchers

1. Curtain walling with opaque spandrel panels

2. Brise soleil
Note: Additional vertical brise soleil to fenestration, not currently shown, may be required to limited locations

3. Render cladding system

4. Facing brick

5. Engineering brick

9. Louvred panel

2 GA ELEVATION - COURTYARD SW.
SCALE 1 : 200

Proposed Courtyard Elevations for the new Whitmore High School

- ELEVATION KEY**
- 1 - Curtain walling/ window with opaque spandrel panels.
 - 2 - Brise soleil
 - 3 - Render cladding system
 - 4 - Facing brick
 - 5 - Engineering brick
 - 6 - Standing seam roof
 - 7 - Ballasted monopitch roof
 - 8 - Flue
 - 9 - Louvred panel
 - 10 - Plant deck maintenance stair
 - 11 - Photovoltaic solar panels
 - 12 - Ventilation wind catchers
