

DESIGN NOTES:

- This drawing is to be read in conjunction with all other RWV Consulting Ltd. project drawings and specifications.
- All levels are in metres above ordnance datum based on the topographical survey drawing supplied by the Client.
- All dimensions are in millimetres unless stated otherwise.
- Do not scale from this drawing, use figured dimensions only.
- All setting out details shall be verified on site with the Engineer. The Engineer may require minor amendment to the setting out and/or level details to ensure proper tie in to the existing carriageway and/or footways.
- No private surface water run off shall discharge onto the public highway.
- Private drainage and external works shall comply with Building Regulations and all associated British Standards (BSEN where applicable).
- All work within the public highway will be carried out in accordance with the requirements and specification of the Local Highway Authority, no work shall be undertaken within the public highway until a license has been issued by the Highway Authority.
- The contractor shall be responsible for verifying the locations of any existing statutory utilities, along with any adoptable and private drainage that may be affected by the proposed works. Identification should be carried out by means of either a CAT scan or hand dug trial holes. Any damage to existing plant or equipment shall be repaired/made good.
- Details of the proposed statutory undertakers supply routes to be confirmed by the relevant undertaker.
- Traffic signs and road markings to be in accordance with traffic signs regulations and general directions, 2016.
- All paver and sett paving to be laid in accordance with BS 7533-3.
- All kerbs to be in accordance with BS EN 1340.
- For external works locations refer to Landscape architects Drawings.
