NB: Sewer symbol colour indicates the type:			
RED	- Combined		Private Sewer Transfer
GREEN	- Surface Water		Lateral Drain
BROWN	- Foul		Inspection Chamber
Purple	- Former S24 sewers (for indicative purposes only)		

**Notes:**

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dŵr Cymru Cŵr/Welsh Water (the Company) agrees this information as to the position of its underground apparatus by way of general guidance only and on the understanding that it is based on the best information available and is warranted as to its correctness in relation to the position of excavations or other works made in the vicinity of the Company's apparatus. The error of locating apparatus makes carrying out any excavations made entirely on one's own. The information which is supplied by the Company is done so in accordance with statutory requirements of sections 103 and 109 of the Water Industry Act 1991 which is based upon the best information available and, in particular, but without prejudice to the generality of the foregoing, it should be noted that the records that are available to the Company may not disclose the existence of water mains, electric cables, lateral drains or disposal pipes and any other cables and/or apparatus laid before 1 September 1938, or if they do, the location of such apparatus may not be as accurate as it may be. It is recommended that the location of the apparatus shown on this map is strictly without prejudice to the provisions of the New Roads and Street Works Act 1991 and the Company's liability is limited to the best of its knowledge and belief.

Service pipes are not generally shown but their presence should be anticipated.

**EXACT LOCATIONS OF ALL APPARATUS TO BE DETERMINED ON SITE.**
