Hi Jess,

Please see another objection from a local resident. It is the same as the previous one but from a different family member.

Many thanks,

Nathan Slater

Subject: Proposed Expansion for St. Nicholas CIW Primary School

Dear Mr.Slater,

I wish to express my strong objections to the proposed expansion of the above School.

The main grounds for my objections are related to the total unsuitability of the narrow residential streets in the vicinity of the existing school for the traffic and parking generated by parents and others in the morning period before the school starting time and, particularly, in the afternoon from about 3.00 to 3.45 pm. The road infrastructure in the village cannot cope with the existing school and already causes considerable difficulty and inconvenience for local residents. The proposal envisages an increase of over 100% in the number of cars seeking to enter the village to drop off or collect the pupils. This is a recipe for complete chaos every school morning and afternoon and would increase difficulty and inconvenience even further.

I have lived in St. Nicholas for 11 years and have experienced a gradual deterioration in basic amenities for village residents due to the increasing numbers of parents, cars and children attending the current school.

For the reasons listed above, I appeal to the VOG council to reject this planning application and consider other more suitable sites which could accommodate the planned expansion for the school.

Yours Sincerely
Sandra Lewis
