Comments	<p>after moving into St Nicholas village 2 years ago I was surprised to see a primary school tucked in the corner of the village with no pavements along the roadside and no parking facilities within the school for parents. When it came to my attention that the school was to be rebuilt I could understand why. Once I read the drawings and realised that the school was to be enlarged considerably with no provision again for any parking spaces I have found myself having to object to the whole proposal. I have been in building nearly 40 years and have made many thousands of planning applications and am aghast how the local authority think this project will work on such a small site in a conservation area in the middle of small village with no pavements. I am sure when the planning officers visit at school drop of and pick up times they will come to the same conclusion. Please find attached my objection letter.</p>
