Comments	<p>The latest amended report by AECOM demonstrates a lack of understanding of the parking and road safety issues with this proposal. The fundamental problem is that there is and always will be insufficient parking spaces for the numbers of pupils planned. The most sensible option which would comply with 4.1.9 PPW, LTP, LDP etc is to locate any new school nearest to where the greatest demand exists and thereby minimises the need to use of the car. If these important issues are to be ignored and a new school built in St Nicholas then an alternative larger site with safer access and parking provision needs to be found.</p>
