

Bolston House, Bonvilston

## **Landscape Strategy** LA.**1**

Key

Refer to LA4 for planting details an outline implementation specification

**Tree planting** (root barriers to be provided as necessary).

**Pleached trees** provided along the western boundary with 2.0m high clear stems to retain views of the existing stone wall. A soft visual barrier between the existing dwellings and the proposed development will be created due to the canopy of the pleached trees.

**Shrubs** to highlight junctions and streets, and greening throughout the development. Shrubs will also provide year-round interest with bold foliage, texture, and colour through provide evergreen and deciduous shrubs.

**Specimen shrubs** to provide additional height and interest throughout

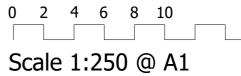

**Climbing plants** to soften walls and the development

Evergreen buffer planting and trees within rear gardens provided for privacy between the proposed dwellings and the existing pub.

**Rain gardens** provided to catch run-off from the road and to provide visual interest within the landscape scheme with shrub and herbaceous plants (refer to the engineer's information)
