Dear Andrew

Re: Proposed holiday accommodation unit

Following our recent site visit, we can confirm the existing concrete foundation slab and brickwork walls to the existing partially collapsed out building are in structurally sound condition. The partial missing exterior walls can be rebuilt using reclaimed bricks on site to match the existing. New timber load bearing insulated walls can be added to the internal skin (subject to Building Control approval) to provide a one bedroom holiday unit

Should you require any further information, please contact by email at infomarees@aol.com or on my contact number 07973 790993

Your Sincerely
For and on behalf M.A.Rees Construction LTD

Mark Rees – Director
